

Cylinder Serial Number Location

☑ If requesting a duplicate cylinder, option, or seal kit from an existing job, we REQUIRE the Serial Number of that cylinder to quote accurately. This page summarizes what is needed, and the physical location of the SN# on the cylinder.

HyperCyl Serial Number Locations:

☑ If the cylinder is painted **BLUE**, blue label reflects model# + SN#

- Near Pneumatic ports on front of cylinder
- All Model (HPX, HPS, HPT, HZS, HPI, HZ).
- 4-or5-digit Serial Number **stamped** into end-caps.

☑ If the cylinder is painted **GREY**, blue label reflects model# + SN#

- Top of Hydraulic caps (HPX, HPS, HPT, HZS).
- Top of Pneumatic cap (HPI, HZ).
- 4-or5-digit Serial Number **stamped** into end-caps.
